Scotland's national forests and land are responsibly managed to the UK Woodland Assurance Standard.

Felled area to be restocked in line mixture of Scots pine and sycamore, this will increase species diversity in this forest.

Larrick Cairn Scheduled Ancient Monument will be opened up during future thinning operations

LISS managed coupes are likely to regenerate with scots pine and mixed conifer in groups

Felled Areas to be restocked with pure Scots pine

Riparian zones will be a mixture of native broadleaves with 50% open space

Greenlands Scheduled Ancient monument. The scheduled area will not be restocked and regeneration will be removed. The 20m buffer around it will be left open but low density natural regeneration will be retained.
