Location

Nearest postcode: PH20 1BU

How to get here

Laggan Wolftrax is on the A86 between Spean Bridge and Newtonmore, about 1 ¼ miles (2.8 km) west of Laggan village. It is well signposted. The car park is at grid reference NN 593 922.

Laggan Wolftrax Centre

The Laggan Wolftrax Centre is next to the Wolftrax car park. Run by Laggan Forest Trust, the centre has a bright, airy café with great food and friendly staff.

The centre has toilets and coin operated showers. There's also a small bike shop and bike hire available through the Wee Bike Hub.

Cycle route grading - Is this for you? Find the right grade for your abilities

Green: Easy ●

Expect: Relatively flat, wide and smooth trails. Gentle climbs, descents, rollers and berms, with easy to avoid features such as rocks and potholes. Surface might be loose, uneven or muddy at times.

Blue: Moderate ■

Expect: A mixture of climbs and descents with moderate gradients, technical features like tree roots and rock steps; jumps and berms. Rollable features at controlled speed. Variable surfaces.

Red: Difficult ▲

Expect: A mixture of steep climbs, descents and/or avoidable features. Larger jumps, berms and rollable features at controlled speed. Technical features such as tree roots, drop-offs and large rocks. Very variable surfaces.

Black: Severe ◆

Expect: Long and steep climbs, descents and jumps. Numerous hazards including drop-offs and severe features. Rapid rate of surface change. Commitment required.

Double-black: Extreme ◆◆

Expect: Very fast and steep descents. Large drop-offs, jumps and unavoidable obstacles that require high levels of skill and commitment. Extreme level of exposure or risk. Rapid rate of surface change.

Forest road & tracks

Expect: Gradients can be steep or variable. Surfaces may be uneven, loose or potholed. Navigation skills are useful (routes not always waymarked). Look out for other users, vehicles and forestry work.

Mountain bike trail information

The map for these trails can be found on page 3

Green: Easy

Gorstean | 2km (4km return)

A wide, low-level, surfaced gravel trail to Gorstean car park.

Trails ordered by level of difficulty

Wolf Cub Green | 3.5km

Ideal for children and those just starting out - it also makes a great warm-up. The route is fairly wide with a shallow climb and a fantastic singletrack return. Remember to wear helmets and gloves!

Blue: Moderate

Blaeberry Flapjack | 400m

As tasty as the name suggests, this roller coaster of a trail is a fun descent back to the centre, with mellow jumps and swooping corners. A perfect confidence builder to try before the more challenging upper blue and red graded trails.

Give & Take | 850m

Take in the views on this smooth, winding climb which includes optional rock sections to build your skills. You'll get glimpses of what's to come as this climb snakes its way up between the blue and red descents to 'The Lair' viewpoint.

The Pict | 300m

A smooth, fast flowing lower section of Slaba-Dabba-Doo which can be started from part way up the Give & Take climb, giving an ideal place to build confidence on blue routes before moving further up the hill.

Slaba-Dabba-Doo | 525m

You'll find plenty of classic Laggan bedrock on this fast flowing downhill with berms and rollable rock features. Add more rock by trying the alternative red-graded lead-in 'Bamm Bamm' from higher up the hill.

Red: Difficult

Howlin' Wolf Red | 800m

A fast flowing and great fun trail with lots of sweeping berms and occasional jumps.

Leapin' Wolf Red | 700m

The next step up from Howlin' Wolf, this trail introduces more table tops jumps, more frequently. Control your speed and roll them until you build your confidence and skills, they can have quite a kick!

Rib Rattler Red + Spare Rib | 2.5km

Fast and flowing, this technical trail is narrow with built in & 'opt in' features. Look out for Air's Rock - a black graded slab feature, easily bypassed. Built-rock causeways and natural rock features will keep you amused and test your stamina!

Alpha Red | 3.8km

Another fast flowing route with technical features and rock slab descents. The ascent is challenging, with lots of technical features to build you up to the fast-flowing singletrack descent.

Black: Severe

Wolf of Badenoch Black | 3.9km

For expert riders, this is demanding and technical. Tight & testing, it has a multitude of rock features, sizeable drop-offs, stone staircases, boulder fields & rock slabs - with no escapes for the faint hearted!

Off-road cycling is a hazardous activity carrying some inherent risks.

Please consider your skills, abilities and fitness carefully, and always make sure your bike and helmet are safe to use.

Follow all signage, cycle safely, enjoy yourself and come back soon.
