Subject: Craigiels Community Woodland

Thank you for your flier describing the steps taken so far in the development of the Craigiels Community Woodland. It seems that you have achieved a lot already. Dumfries and Galloway Council is very supportive of initiatives like this, we believe that community ownership of assets like this is the best way to achieve long term environmentally sensitive custodianship.

Whilst we cannot, at this point in time, offer any financial help please keep in touch with myself and others in the DGC Environment team, if we can offer advise and support we will.

All the best

Nick Chisholm (Project Officer)
